I drink coffee, I enjoy craft beer and I remain curious and resourceful. Developing for the web is the constant learning experience, that I enjoy. I'm a self-taught web developer who has been working professionally in the field since March, 2001.

2017 / 2016 / 2015 / 2014 / 2013 / 2012 / 2011 / 2010 / 2009 / 2008 / 2007 / 2006 / 2005 / 2004 / 2003 / 2002 / 2001

Present - Jun 2012

American Society of Mechanical Engineers

Web Production Manager

Websites: asme.org, efests.asme.org

Stack: HTML, CSS, Javascript, JQuery, Bootstrap, Masonry, ModalBox, Animate.css, Toastr, Font Awesome and Kentico CMS.

The Work: I hire, manage, and train a team of producers to develop and maintain content. I created operational processes to maintain quality performance. We work with designers, marketing, analytics and the IT department on the structure, creation and maintenance of web projects.

Apr 2012- Feb 2011

Synergistic Marketing

Lead Front End Developer

Website: synergistic marketing.com

Stack: HTML, CSS, Javascript, and PHP

The Work: Maintained the website while replacing the company's deployment environment and CMS. Developed and managed website updates, email and social network marketing campaigns.

Nov 2008- Aug 2007

Publishers Clearing House

Web Designer

Website: pch.com

Stack: HTML, CSS, Javascript, and Actionscript

The Work: Acted as the project manager for each landing page I developed. The team consisted of a copywriter and a javascript developer. Each design was tested for cross browser integration and checked by the legal team.

Sep 2007- Sep 2006

UGO

Web Developer

Website: ugo.com

Stack: HTML, CSS, Javascript, and Actionscript

The Work: Worked on a team that updated and replaced the CMS. Improved user experience, and designed a new user interface. Worked closely with the IT team to implement the CMS.

Nov 2005- Nov 2003

Merit Software

Information Systems and Technology Specialist

Website: meritsoftware.com

Stack: HTML, CSS, Javascript, and Actionscript

The Work: Guided customers through standard and network installations, both remotely and on-site. Created and maintained SEO landing pages and pay per click advertising on Microsoft, Yahoo and Google.

Present - March 2001
